Research Fortnight

volume 2

index

Research and technology policy in Britain and Europe • Founded by William Bown • February 1997

CONTENTS

This index covers Volume 2 of Research Fortnight, published from 18 October 1995 to 2 October 1996.

- Frequently mentioned bodies such as the OST, DTI and other government departments are not listed except when the story provides substantive information of their structure/agenda. People are not indexed other than where stories concern them rather than their organisations.

- Some subjects are indexed, but the best approach is to look up the sponsoring research council, government department, trade body or Technology Foresight panel.

- View from the Top articles (denoted by ♦) and letters are referenced by author as well as subject.

- The ROPAs supplement with issue 18 is abbreviated to 18RS. The Summer Supplement following issue 20 is abbreviated to 20SS.

Back issues are currently available for most editions in Volume 2. Contact: Research Fortnight, Suite 2000, 134-146 Curtain Road, London EC2A 3AR.
